2 Language and Society

This course provides a basic user-friendly introduction to the study of language and the relationship between language and society. Since the course targets people who have no prior knowledge of the subject, it presents information in short units, introducing the major concepts in language study – the analysis of language use on different levels. To increase student engagement with the teaching materials, the course also includes practical activities involving data analysis and interpretation.

Teacher: Violeta Kaledaitė
Teacher: Jūratė Ruzaitė

Animation Creation as a Learning Tool

Aim of the learning programme is to make learners familiarize with the basic techniques of animation creation; understand and explore how animation creation can be used in the classroom to foster learning.

The method can be applied for various age groups and in different subject areas.

Facilitator: Kriszta Mihalyi
